

# SANDRA JAQUELINA AGUILAR

ARCHITECT SPECIALIST IN PLANNING AND LANDSCAPE DESIGN

Las Acacias 54 | Potrero de Los Funes . San Luis. Argentina P.5701  
11 / 12 / 1968 | DNI: 20.414.026

**Architect graduated in 1997**, from the Faculty of Architecture, Urbanism and Design, National University of Córdoba. Argentina.

**She received in 2008 from the Postgraduate Career of the Specialty in Planning and Landscape Design.** Graduate School. Faculty of Architecture, Urbanism and Design, National University of Córdoba. Argentina.

**Member of the Argentine Center of Landscape Architects since 2009.**

## About Me

1. **I value the landscape**, I observe it, I analyze the opportunities and benefits of the **Serrano** landscape
2. **I contribute** to the diffusion of landscape architecture.
3. **I am Proactive, challenges** motivate me even more when resources are scarce. I am aware that I am from America, and that is my reality of Design, of the decolonization of printed models.
4. **Each situation is an opportunity** for me to generate Architecture, Landscape, Objects or Organization.
5. **I have developed more than 90 Project Designs** in all their varied scales, creativity being my best Design tool.
6. **I have practiced my Profession** as an Architect and Landscaper, in an alternative, radical way, building my own model of doing and communicating. I have allowed myself the freedom to listen to innovative voices, rethink and exercise an active and creative role, almost as a social maker
7. **Teamwork and human exchange** has been the great motivator for providing effective solutions.
8. **I am interested in the issues currently addressed by Landscape** in the cities, territories and fragile urban landscapes of this 21st century.
9. **My professional experience of 25 years of project activity in San Luis**, on mountainous territories, has allowed me to imagine new connections and through the practice of art in the landscape generate my own Design tolos

The feedback with the natural geography of the mountains.

Ability to observe | grasp the opportunities | scale awareness.

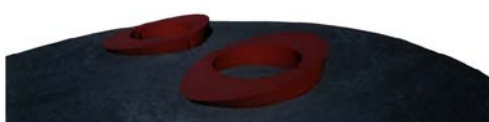

Contribute to discover our contemporary identity.

Timing and management from thought to action.

Applied creativity in maximizing available resources: human, technological and natural.

10. **I am interested in learning about other territories and problems, to provide effective, interdisciplinary solutions, as a Landscape Architecture Professional.**
